

'IITH WAPMS' – Wireless Air Pollution Monitoring System

IITH WAMPS features

- IITH mote is communication module
- On board Pollution sensors: CO (carbon monoxide), CO₂ (Carbon di oxide), O₂ (oxygen), and Temperature
- Solar Powered and Weather Proof
- Motor based periodic air circulation
- Permanently deployed at IITH campus
- Continuously collecting data which is Available online
<http://www.iith.ac.in/IUATC/>
- Used for pollution data collection at Hyderabad city

For further information please contact: raji@iith.ac.in.

Field deployment IITH mote at Panjaguta for pollution monitoring
