

## Opportunity to provide Management and Professional services for Fabless Chip Design Incubator

**IIT Hyderabad has established Fabless Chip Design Incubator (FabCI) in Aug 2017. This project, funded by Ministry of Electronics and Information Technology, is aimed at promoting start ups in the area of Chip Design.**

The primary motivation for this unique incubator program is to provide a one-stop solution for start-ups focusing in the area of chip design. The vision of this incubator is to create an ecosystem wherein the incubates are not only provided with the relevant infrastructure, hardware and software but also are mentored through the path of success with the help of mentors who are pioneers in this field. The grand vision is to leverage the design expertise that exists in India to create Indian IP and to make a mark in chip design internationally.

### USP of FabCI:

- **Location:** Located at IIT Hyderabad amidst a well nurtured entrepreneurial ecosystem comprising two more incubates and Technology Research Park. **VIRTUAL INCUBATION IS ENCOURAGED.**
- **EDA tools:** Access to full suite of Cadence, with no limitation on the number of licenses. For Mentor Graphics, the number of licenses is limited. These tools are available for FREE for a period of 24 months
- **Characterization:** Access to state of art characterization facilities
- **Prototyping:** TSMC foundry access through MUSE semiconductors (Limited funding)
- **Human Resources:** Well Trained Human Resources
- **Networking:** Access to VCs and Angel Investors

Through this advertisement, we intend to engage Management and Professional Services of experienced personnel/ company in achieving the objectives of the incubator for a period of six months initially extendable up to 1 year. The payment for the services shall be carried out on a monthly basis on the receipt of a progress report and invoice. The personnel/company should carry out following tasks efficiently

1. Promote FabCI and spread awareness about Incubators through various media
2. Attract potential Incubates and Connect them to administration of FabCI
3. Organize workshops/webinars regarding FabCI in consultation with FabCI management
4. Handhold selected incubates and help them in company formation process

**Interested personnel/companies can apply on or before 03.07.2020 by sending the e-mail of your/ your companies' profile to [svanjari@ee.iith.ac.in](mailto:svanjari@ee.iith.ac.in).**

**Eligibility:**

- 1. The personnel/company should have worked in Entrepreneurial ecosystem for at least 7 years**
- 2. Should have started a company on their own**
- 3. Should have complete understanding of company registration and management process.**
- 4. Should have registered company or GST/DIN number**
- 5. Should have organized a promotional campaign/ webinar/ workshop with more than 100 participants.**
