Shortlisting Criteria

The PhD applications to the department of AI are shortlisted according to the following shortlisting cutoffs based on details provided at the time of application. Conversion formula followed in the cutoff: Percentage = (10 × CGPA) – 5 (or equivalently) CGPA =percentage/10 + 0.5

- GEN/OBC (Creamy) : 9.1 CGPA on scale of 10 (or equivalently 86 cumulative marks percentage if percentage marks are provided in the application)
- OBC (Non-Creamy) : 8.19 CGPA on scale of 10 (or equivalently 76.9 cumulative marks percentage if percentage marks are provided in the application)
- SC/ST : 7.735 CGPA on scale of 10 (or equivalently 72.35 cumulative marks percentage if percentage marks are provided in the application)

For a candidate application with GPA, but not on a 10-point scale, it is converted to scale of 10 as $CGPA = CGPA_{OnScale} * 10 / (K)$, and then used with the CGPA cutoff. (E.g. if K=4, i.e. a 4.0-point scale, $CGPA = CGPA_{OnScale} * 10 / 4$)

Please find below list of candidates shortlisted under each category. More specific information about each candidate cannot be shared without the consent of the candidate.
