249	IITHY/R/T/24/00161	06-11-2024	<p>I seek information under the RTI Act, 2005, regarding the authority of Indian Institutes of Technology (IITs) under Chapter 2, Clause 6, points (f) and (g) of The Institutes of Technology Act, 1961, which grants IITs the power to supervise residence, regulate discipline, and promote the health and general welfare of students. Specifically, do these provisions permit IITs to impose mandatory participation in sports or physical education activities as part of their curriculum, including setting minimum attendance requirements for such activities to qualify for course completion or degree eligibility? Does this authority extend to the imposition of cultural agency over students, such as making these sports activities compulsory or part of their curriculum, even if they do not carry academic credits? If so, are there any guidelines or circulars from the Ministry of Education that clarify how student autonomy should be balanced with such institutional mandates? Additionally, is there an established grievance redressal mechanism for students who believe that these requirements impose undue physical or mental strain or violate their personal autonomy? Ultimately, if an IIT mandates a certain percentage of attendance in these sports courses, does Indian law allow them to do so, and if the answer is yes, under what provisions is this explicitly mentioned, and does it or does it not supersede Article 21 of the Constitution?</p>
