Presentation Rule:

1. In the group meeting presentation you have to present mainly your research work.
2. However, people can present Good Journal paper (such as Nature, Science, Cell, Blood etc. Impact factor more than 10 only). But journal presentation should not be more than half of your total numbers of presentation in a year. **Your consecutive group meeting presentation should not be on the journal paper.** As an example, if you presenting today good journal paper, then next time you have to present your work only.
3. If you are presenting Journal paper, you have to circulate it to group at least 1 week advance.
4. You **HAVE** to **PRESENT** on your scheduled date. If you cannot present in your slot, this is your responsibility to find other people to present in your slot.
5. **Monthly Review meeting should contain what you did during the entire month and what is your plan in the next months.**
